originally presented at the sixth adult development symposium the papers in this volume examine possible relationships between the fields of organizational and adult developmental psychology with particular emphasis given to the grand developmental theories of Lawrence Kohlberg Jean Piaget Lev Vygotsky Heinz Werner and their descendants on the most general level the papers on development in the workplace are organized on the basis of the authors chosen units of analysis the individual the dyad and group and the organizational culture the editors conclude by uncovering similarities and differences among the contributors theoretical approaches to development in the workplace and their own from a recent extension of Werner's organismic developmental theory they focus their suggestions for future research on such issues as unit of analysis the holistic and systemic nature of human behavior and experience broader conceptualizations of the person of the environment and of development the need for methodological eclecticism the complementarity of basic and applied research through this lens they shed light on underlying reasons why the majority of authors have focused on the individual worker as a unit of analysis and then propose that future researchers more broadly define the basic concept of development in the workplace

there is an increasing recognition today that young people need to have knowledge about religions and world views in order to live and work in diverse societies what kind of maps are they provided with through religious values and ethics education does education address the challenging existential questions that children and adolescents

ask about life and the world this volume addresses different aspects of how existential questions have been dealt with in educational research it especially draws attention to the swedish research tradition of focusing on life questions and the interpretation of life in education but with contemporary international research added it also addresses issues of ethics education and discusses possible options for the future of existential questions as a resource for education

computers communication and mental models is a far ranging focused treatment of the cognitive and behavioural issues in computer mediated communication knowledge representation and computer supported co operative work it is also an argued development of the theoretical bases for treating computerized tools as intermediaries in the communication of mental maps between tool builders and users empirical trails are reported in detail sufficient for representation in computer based instruction fractal dimensions of cognitive mapping and group decision support the book is a collection of multidisciplinary papers which each shed light on the complex interactions between users and systems architects via a common medium computerized tools

this book provides insights into china s belt and road initiative bri from asia pacific and the middle east it offers critical perspectives from various directions not excluding historical investigations human geography approaches and neo marxist inclinations china s belt and road initiative bri represents one of the biggest geopolitical visions since the cold war and offers the possibilities of an intercontinental vision of aid politics along with prospects for pan asianism by and large any geopolitical vision that purports to foster inter regional dialogue and materialist development of peoples and economies is bound to have its flaws the belt and road initiative bears hallmarks of the socio political tradition of chinese authoritarian infrastructure politics while also offering a possible alternative to the so called washington consensus of free markets deregulation and a shift towards liberal democracy additionally the belt and road initiative opens up wide open intellectual spaces for dialogues between asians arabs and westerners on the meaning of inclusive inter continental relationships in philosophy geography and economics the significance of this is often underplayed in chinese official statements whereas this book introduces these possibilities within its assorted sections the book is about much more than the material aspects of china s belt and road initiative in fact various chapter authors use the belt and road to look at perhaps the most fundamental issue of our times how does one build a global world order and societies that are inclusive cohesive and capable of managing interests of all stakeholders as well as political cultural ethnic and religious differences in ways that all are recognized without prejudice and or discrimination prof james dorsey s rajaratnam school of international studies nanyang technological university singapore

the contention of film and the american presidency is that over the twentieth century the cinema has been a silent partner in setting the parameters of what we might call the presidential imaginary this volume surveys the partnership in its longevity placing stress on especially iconic presidents such as lincoln and fdr the contributions to this collection probe the rich interactions between these high institutions of culture and politics hollywood and the presidency and argue that not only did hollywood acting become an idiom for presidential style but that hollywood early on understood its own identity through the presidency s peculiar mix of national epic and unified protagonist additionally they contend that studios often made their films to sway political outcomes that the performance of presidential personae has been constrained by the kinds of bodies for so long white and male that have occupied the office such that presidential embodiment obscures the body politic and that hollywood and the presidency may finally be nothing more than two privileged figures of media age power

When somebody should go to the ebook stores, search instigation by shop, shelf by shelf, it is truly problematic. This is why we allow the ebook compilations in this website.
