this is the first full length study to examine the links between high romantic literature and what has often been thought of as a merely popular genre the gothic michael gamer offers a sharply focused analysis of how and why romantic writers drew on gothic conventions whilst at the same time denying their influence in order to claim critical respectability he shows how the reception of gothic literature including its institutional and commercial recognition as a form of literature played a fundamental role in the development of romanticism as an ideology in doing so he examines the early history of the romantic

movement and its assumptions about literary value and the politics of reading writing and reception at the end of the eighteenth century as a whole the book makes an original contribution to our understanding of genre tracing the impact of reception marketing and audience on its formation

this book is a study in the myth of the origins and early history of the goths as told in the getica written by jordanes in ad 551 jordanes claimed they emigrated from the island of scandza sweden in 1490 bc thus giving them a history of more than two thousand years he found this narrative in cassiodorus gothic history which is now lost the present study demonstrates that cassiodorus and jordanes did not base their accounts on a living gothic tradition of the past as the getica would have us believe on the contrary they got their information only from the graeco roman literature the greeks and romans however did not know of the goths until the middle of the third century ad consequently cassiodorus and jordanes created a gothic history partly through an erudite exploitation of the names of foreign peoples and partly by using the narratives about other peoples history as if they belonged to the goths the history of the migrations therefore must be reconsidered
